

Bb/Moodle Functionality Matrix

1. Introduction & Personal Information

Welcome to the Open Source Collaborative Project's Moodle & Blackboard Comparison Matrix.

This matrix will attempt to compare functionality of the Moodle 1.9, Blackboard 7.x Learning System (LS), Blackboard 8.x Learning System and Blackboard 7 or 8 Academic Suite (AS) course management systems. By determining true functionality, the project team will be able to compare the four CMS's equally.

Before you begin, please provide us some information about yourself. This information will help us organize the data we receive and aid in the follow-up effort if needed.

Once you have supplied the information, click on the Save button to view the matrix.

1. Personal Information: (optional)

This information will be used as follow up purposes only.
